Math 117-02 Syllabus
Fall 2008

Course title:
Calculus 4: Integral Vector Calculus

Meeting times and room:
MWF, 9:15am - 10:20am, Bailey 201

Text:
Calculus, by Howard Anton

Instructor:
Julius Barbanel
Office: Bailey Hall 208A
e-mail - barbanej@union.edu
phone: (388)-6524

Exams:
There will be three exams during the term. They will be on Friday of weeks 3, 6, and 9. There will also be a final exam during final exam week.

Homework:
Homework will be assigned daily. Certain assignments will be handed in.

Final grade:
60% exam average +
10% homework average +
30% final exam

Or: If your final exam is higher than the lowest of your three exam scores, then the final exam will count 40% and the lowest exam will count 10% (instead of 20%).

Office hours:
Your instructor does not list regular office hours, but makes lots of time available for student help. All you have to do is ask (in person, by phone, or by e-mail).

A note on final exams:
The Mathematics Department does not give early final exams. Therefore, you should make sure that no one in your family purchases a non-refundable airline ticket for you for a departure earlier than the last scheduled final exam.

Web site:
The course web site can be found at www.math.union.edu/~barbanej/M117F08. It will contain homework assignments, exam outlines, Mathematica notebooks, and various other course materials.
